

## License Information used with Television

The Importer or the Manufacturer means the company which is defined on the rating label on the Television Set (TV).

The software pre-installed on the TV consists of multiple, independent software components. Each software component is copyrighted by the Importer or the Manufacturer or a third party.

The TV uses software components that are distributed as freeware or open source software under a third-party end-user license agreement or copyright notices (hereinafter referred to as a “EULA”). Some EULAs require that the source code of the applicable component be disclosed as the condition for distributing the software component in executable format.

At least three (3) years from delivery of this product, The Importer or the Manufacturer will provide to any third party who contacts the Importer or Manufacturer through the contact information provided on the rating label, for a charge no more than the cost of physically performing source code distribution, a complete machine-readable copy of the corresponding source code covered under GPL2.0 and – as applicable – LGPL2.1, as well as the respective copyright notice thereof.

Source codes covered under GPL and LGPL are also freely available to you and any other members of the public via our Website, url: <http://www.vosshub.com>. All relevant open source software source codes will be provided in case of request.

The Importer or the Manufacturer warranty provided in respect of the TV is the only warranty provided and no additional warranties are provided in respect of the software components subject to EULAs.

Some of the software components distributed under EULAs are made available for use by the user on the premise that they are not copyrighted or warranted by the Importer or the Manufacturer or any third party. These software components are licensed to the user free of charge and therefore not covered by any warranty within the scope of the applicable laws. These software components are provided on “as is” condition without any warranty, whether express or implied. “Warranty” here includes, but is not limited to, an implied warranty for marketability or fitness for specific uses. All risks associated with the quality or performance of these software components are assumed by the user. The Importer or the Manufacturer shall not be liable whatsoever for any cost of repair or correction or other incidental expense incurred in connection with a defect found in any of these software components.

Unless specified under the applicable laws or in a written agreement, a party who changes or redistributes the software with consent from the copyright holders or based on the aforementioned licenses shall not be held liable whatsoever for any loss arising from the use of or inability to use such software components. The same applies even when the copyright holders or relevant third parties have been informed of the possibility of such loss. “Loss” here includes normal, special, incidental and indirect loss (including, but not limited to, the loss of data or its accuracy; loss incurred by the user or any third party; and interface incompatibility with other software).

Please read each EULA for details on the use conditions and items that must be observed regarding these software components.

The table of the software components pre-installed in the TVs, which are subject to EULAs located at the device User Interface system; MENU>SETUP>MORE>OSS. The user should read the applicable EULAs carefully before using these software components. The EULAs are exhibited in their original text (English) as exactly written by the respective parties other than the Importer or the Manufacturer Corporation.
